

Yellow Temporary Distribution Box

Preview

Power Tech(R)'s Temporary Power Distribution Box is used by contractors on jobsites (indoor or outdoor) to provide and distribute power from temporary power poles or jobsite generators. Our box is ETL approved for indoor and outdoor use. Engineered utilizing the latest in GFCI technology, Southwire's iconic yellow temporary power boxes have been providing contractors, electricians, and engineers with the highest level of electrical safety for over 35 years. The 19703R02 is a single phase. UK series Industrial Mobile Distribution Box is in line with relative IEC standards, which is for electrical network (50-60Hz, Voltage not higher than 660V). These power distribution centers are protected by a GFCI module giving the user not only ground fault.
